Asthma Callback

Instructor: Denise Bradford/Wil Murphy
Date and Time: Monday, June 22, 2015, 8:30 am to 10:30

Course Description: This training session will focus on the information related to the Asthma Callback Survey (ACBS), including topics related to data collection, data submission and clearing, and weighing of the data. The session will introduce Asthma Callback related information for data collection, submission, and cleaning. Examples will illustrate the application of data submission and weighing of the Asthma data. Some information will be covered on how the weighed data can be used in project and research paper development.

Prerequisites:

Intended Audience: Persons involved in asthma callback data collection or asthma callback data users
